Design-Build Expert Joins Brown and Caldwell

Jan. 17, 2012, WALNUT CREEK, Calif. — Brown and Caldwell today announced that Steve Gates has joined the firm as Senior Vice President, Design-Build Services, working in the company's Boston office. Gates joins BC as the company expands its presence in the alternative project delivery market, with multiple large design-build and program management projects underway. Prior to joining BC, Gates led Energy, Environment and Infrastructure marketing and sales for SAIC. He brings 35 years of experience directing major program management and alternative delivery projects, including as New York City's \$1.2 billion advanced wastewater treatment program and Colorado Springs Utilities \$900 million Southern Delivery System. He is a contributing author to the textbook "Design-Build for Water and Wastewater Projects," now in publication by the American Water Works Association. Steve will lead Brown and Caldwell's alternative project delivery operations in the East and support projects for public and private clients nationwide.

About Brown and Caldwell

Since 1947, Brown and Caldwell has delivered innovative, enduring environmental solutions for municipalities, private industry and government agencies throughout the United States. An employee-owned company, Brown and Caldwell is relentlessly focused on client needs, and brings decades of engineering and scientific experience to every project.
